Our vision is to build up a trusted leader in Safety Management through the development of technical staff excellence, establishing a high level of Ethical practice, and working with clients to meet their Safety objectives. We value and respect.

AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT To be an internationally renowned and respected institution imparting excellent education and training based upon the foundation of futuristic research and innovations inspiring students to prepare them for long-life learning and leadership in an increasingly knowledge and technology-driven world

The mission of the Academy.

impart education in safety management & engineering with special responsibilities in safety sources and high-demand technology areas seek to nurture students of extraordinary motivation and ability and prepare them for lifelong learning and leadership in an increasingly knowledge-driven world envisage establishing institutions of excellence in education competitive edge in research and real-time relevance with futuristic thrusts in offering programs and undertaking activities and projects

AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT mainly focuses on theoretical Knowledge about safety. It includes all types of accidents. Each safety personnel should know how to act before accidents, preventive methods for which theoretical knowledge about all subjects, PPT presentation, First Aid Training, Industrial visits, practical's, seminars, Language skills, etc., are very important. He/she should be a very good observer, have good communication skills, safety-related general knowledge, and management, operation, and designing skills are very important. Experience in the Safety field should be his "first job". He has to study the site or Department's nature of the job to prevent accidents and to study.

Our **AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT** programs are delivered by railway safety academics and industrialists to blend theory with practice and are producing the next generation of system-thinking railway safety engineers & management professionals who will be at the forefront of transforming what railways offer in the future.

We're committed to attracting and retaining the right talent, by providing an environment where our students can develop a fulfilling career. So, if you're motivated to make progress and ready to take the initiative, there are lots of opportunities to grow and go further with us. You'll also have opportunities to develop your skills and knowledge through practical, on-the-job training.

Improvement in higher education, through intellectual teaching for utilizing India's human resource potential to its fullest and to promote the cause of education with integration of industrial training/internship/ research work to create excellent employment opportunities for the students

The **AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT** is dedicated to the pursuit of safety "anytime", "anywhere", and for "anyone".
